

Who am I?

Hey, I'm Calum. I aspire to be an Illustrator and UX/UI designer. Welcome to my brand guidelines. My brand is:

Minimal
Professional
Cool

My Values

I value the opinions of others and believe in hard work to produce the best and most creative outcome. I value:

Simplicity
Quality
Communication

How do I speak?

Throughout my brand i will speak in first person. I am a personable person, I want this to come through in the brand. This will help to form a friendly and approachable vibe. I speak:

First Person
Friendly
Professional

Monogram

My monogram should be used as the main representative of the brand. It should always be the first choice over the brand wordmark and visual.

Do use with
wordmark.

Do use on images.

DONT'S

Don't use other colours.

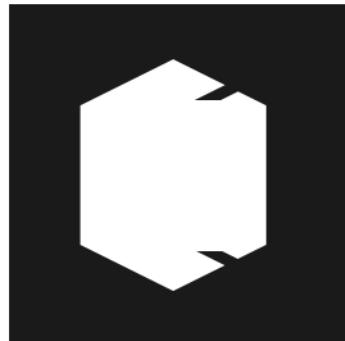

Don't Rotate.

Don't split.

Don't split colours.

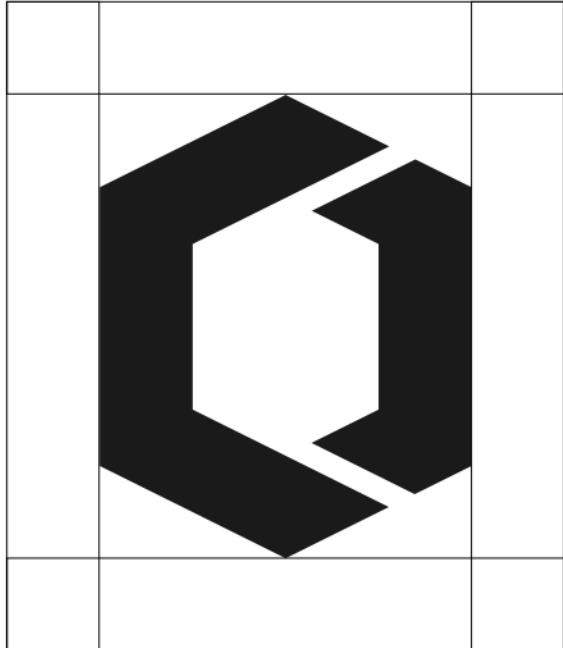

Don't fill.

Don't stretch.

Isolation Zones

Ensure the monogram is isolated within this zone. This is measured using the width of the horizontal lines in the monogram itself.

Wordmark

The wordmark is another representative of my brand. It's best not used on it's own. But it can be if suitable/required.

Isolation Zones

For the wordmark use the same isolation measurements as the monogram. The only exception for this is when they are used as a combination together.

Isolation Zones

When pairing use the same measurements.
Except the wordmark can be paired half the width to the monogram.

Visual Marque

The visual marque should be used as the secondary representative of the brand. This should be used to represent the brand in a more casual form.

Isolation Zones

When isolating the visual marque use the same isolation rules as with the monogram. This keeps measurements consistant throughout the brand.

Teko

Teko

Roboto

Roboto

Teko is the font used within the brand wordmark. This is to be used in titles/headers only.

Roboto is the secondary title/-header font. It can also be used for content when appropriate,

Acumin

Acumin

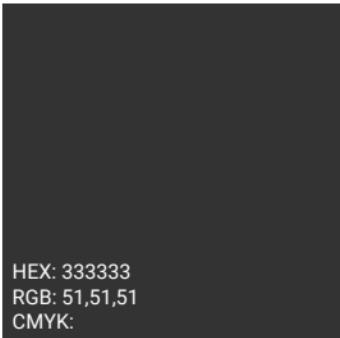

Acumin Variable Concept is the prominent font choice for content. This font is more legible when used in large quantities. Alternativley you can use Helvetica.
